

Arne Jacobsen 3117 Swivel Chair - Series 7

1996 by Fritz Hansen - L57 Turquoise Citron

details

Series 7 chair is an icon of modern furniture history, designed by Arne Jacobsen in 1955.
Its unique shape is timeless and incredibly versatile, showing character without overwhelming the eye.
The chair is made of several layers of pressure-molded veneer, which gives it strength, flexibility and durability despite its slender form.
This is the most popular design in Fritz Hansen's chair collection.
The 3117 height-adjustable swivel chair features a raised five-leg steel frame in chrome.

The chair offered here comes to you in L57 turquoise color and with full chrome swivel base on casters....
